15. SUPPLEMENTARY NOTES

16. ABSTRACT

This bibliography identifies 900 citations on various aspects of Acid Rain, covering published bibliographies, books, reports, conference and symposium proceedings, audio visual materials, pamphlets and newsletters. It includes five sections: Citations Index (complete record of author, title, source, order number); KWIC Index (Key Word In Context); Title Index; Author Index; and Source Index.

ACKNOWLEDGEMENTS

A sincere thank you is extended to John E. Knight, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, for developing the computer software for this bibliography, and to Mary E. Patterson and Darlene D. Booth, Library Systems, U.S. Environmental Protection Agency, Washington, D.C., for the data input. Their invaluable assistance and efforts contributed greatly to this project.

INTRODUCTION

This bibliography was prepared to identify recent publications on various aspects of ACID RAIN. It contains 900 citations covering journal articles, published bibliographies, books, reports, conference and symposium proceedings, audio visual materials, newsletters, and pamphlets. The project is a continuing effort and will be updated periodically.

For additional information, please contact:
